

MRLB Limited

RC: 1867129

Delivering Intelligent Solutions for Energy and Industry

Energy Infrastructure | Industrial Technology | Asset Integrity | Energy Transition

WHO WE ARE

MRLB Limited is an indigenous Nigerian company delivering innovative solutions across the energy, industrial, and technology sectors.

We support clients in oil and gas, power, telecommunications, manufacturing, financial services, and critical infrastructure by combining technical expertise, global partnerships, and local market knowledge.

We help organizations improve operational performance, enhance asset reliability, accelerate digital transformation, reduce emissions, and achieve sustainable growth.

FOCUS AREAS

- 
- **Energy & Industrial Technology**
 - **Asset Integrity Management**
 - **Emissions Monitoring & Decarbonization**
 - **Oil & Gas Services**
 - **Renewable Energy Solutions**
 - **Energy Financing**

VISION & MISSION

To become Africa's leading provider of intelligent energy, industrial technology, and sustainability solutions.

To deliver innovative, reliable, and sustainable solutions that enhance operational efficiency, improve asset performance, and support the global energy transition.

CORE VALUES

01 Innovation

04 Integrity

02 Sustainability

05 Collaboration

03 Excellence

ENERGY & INDUSTRIAL TECHNOLOGY SOLUTIONS

We work with industrial operators to modernize and digitize their operations, helping them move away from manual, fragmented processes to more connected and data-driven systems.

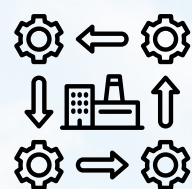

The focus is on improving how assets are monitored, maintained, and optimized so they consistently perform at higher levels with fewer disruptions.

Services

Asset Integrity Management

- Inspection Management
- Risk-Based Inspection
- Corrosion Management
- Mechanical Integrity
- Asset Lifecycle Management

Industrial Networking

- Industrial Ethernet Infrastructure
- Secure Network Architecture
- Edge Computing
- SCADA Connectivity
- Operational Technology (OT) Solutions

Industrial Digitalization

- Industrial IoT Solutions
- Real-Time Data Acquisition
- Remote Monitoring
- Operational Intelligence
- Predictive Analytics

Industries

- Oil & Gas
- LNG
- Gas Processing
- Power Generation
- Manufacturing
- Telecommunications

ASSET INTEGRITY & RELIABILITY SERVICES

At MRLB Limited, we help organizations protect, optimize, and extend the life of their critical assets by delivering comprehensive asset integrity management solutions. Our approach ensures that facilities, equipment, pipelines, and infrastructure operate safely, reliably, and efficiently throughout their entire lifecycle, from design and commissioning to operation, maintenance, and decommissioning.

With increasing regulatory requirements, aging infrastructure, and the need to maximize production uptime, our asset integrity solutions enable clients to identify risks early, prevent failures, reduce operational disruptions, and maintain compliance with industry standards.

Our Solutions

- Risk-Based Inspection (RBI)
- Corrosion Monitoring
- Inspection Data Management
- Reliability Engineering
- Integrity Assessments
- Mechanical Integrity Programs
- Pipeline Integrity Management
- Fitness-for-Service Assessments

Benefits

- ✓ Improved Asset Reliability
- ✓ Reduced Downtime
- ✓ Enhanced Safety
- ✓ Regulatory Compliance
- ✓ Reduced Operating Costs

EMISSIONS MONITORING & DECARBONIZATION

As environmental regulations become more stringent and stakeholders increasingly demand greater transparency and sustainability performance, organizations must adopt effective strategies to monitor, manage, and reduce their environmental footprint. MRLB Limited provides comprehensive emissions monitoring and decarbonization solutions that enable businesses to achieve regulatory compliance, improve ESG performance, and advance their sustainability objectives without compromising operational efficiency.

Through strategic partnerships with leading global technology providers, we deliver advanced monitoring technologies, data-driven insights, and practical decarbonization strategies that help clients accurately measure emissions, identify reduction opportunities, and support their transition toward a lower-carbon future.

Our Services

- Methane Detection & Monitoring
- Continuous Emissions Monitoring
- Carbon Accounting
- ESG Reporting Solutions
- Environmental Data Management
- Flare Reduction Programs
- Decarbonization Advisory

SUPPORTING THE ENERGY TRANSITION

The global energy landscape is evolving rapidly, requiring organizations to balance environmental responsibility with operational and financial performance. MRLB Limited supports this transition by providing innovative technologies, strategic advisory services, and practical implementation solutions that help clients reduce emissions while maintaining productivity and profitability.

By working with trusted international technology partners, we enable organizations to:

- Measure and manage emissions with greater accuracy and transparency.
- Identify cost-effective opportunities for emissions reduction.
- Improve ESG performance and sustainability reporting.
- Reduce methane leaks and routine flaring.
- Prepare for evolving environmental regulations and carbon disclosure requirements.
- Support net-zero and carbon reduction commitments.
- Enhance operational efficiency while reducing environmental impact.

Key Benefits

- Improved Environmental Compliance
- Reduced Carbon Footprint
- Enhanced ESG Performance
- Operational Efficiency
- Data-Driven Decision Making
- Increased Stakeholder Confidence
- Long-Term Sustainability

RENEWABLE ENERGY SOLUTIONS

MRLB Limited delivers reliable and sustainable renewable energy solutions that help organizations reduce energy costs, improve operational resilience, and achieve their sustainability goals. We support businesses and institutions with customized energy systems designed to address grid instability, rising fuel costs, and growing energy demands.

Through strategic partnerships with leading technology providers, we develop and implement scalable solutions ranging from solar power and energy storage to hybrid and embedded power systems. Our services cover the entire project lifecycle, including design, procurement, installation, commissioning, financing support, and ongoing operations and maintenance.

Our Services

- Solar Power Systems
- Hybrid Energy Solutions
- Battery Energy Storage Systems
- Embedded Power Solutions
- Solar Street Lighting
- Energy Efficiency Projects
- Operations & Maintenance
- Energy Financing

Key Benefits

- Reduced Energy Costs
- Improved Energy Reliability
- Enhanced Sustainability Performance
- Increased Energy Independence
- Long-Term Cost Savings
- Business Continuity
- Scalable Energy Infrastructure

Target Sectors

- Financial Institutions
- Telecommunications
- Healthcare
- Education
- Manufacturing
- Government Infrastructure
- Commercial Real Estate
- Agriculture

OIL & GAS SERVICES

MRLB Limited delivers integrated engineering, procurement, and technical support services across upstream, midstream, and downstream operations. We support clients in improving operational efficiency, strengthening asset reliability, and executing projects safely and effectively across the entire oil and gas value chain.

We combine engineering expertise, reliable supply networks, and hands-on field support to deliver projects smoothly from concept through execution and ongoing operations.

OUR SERVICES

Engineering & Technical Support

- FEED Studies
- Engineering Design
- Project Management
- Technical Advisory
- Process Automation

Procurement & Supply

- Pumps & Compressors
- Instrumentation
- Electrical Equipment
- Flow Control Systems
- Heavy Equipments
- Industrial Equipment

Facility Support Services

- Maintenance Services
- Installation Services
- Commissioning Support
- Shutdown & Turnaround Support

Supporting Upstream, Midstream & Downstream Operations

We provide end-to-end technical and operational support to help operators reduce downtime, improve asset performance, and execute projects with confidence across the energy value chain.

INDUSTRIES WE SERVE

Energy

- Upstream Oil & Gas
- Midstream Infrastructure
- LNG Facilities
- Gas Processing Plants
- Refineries
- Power Generation

Infrastructure

- Telecommunications
- Data Centres
- Banking Sector
- Healthcare
- Manufacturing & Agriculture
- Government Institutions

Sustainability

- Renewable Energy Developers
- Energy Transition Projects
- Carbon Reduction Initiatives

PROJECT EXPERIENCE & PARTNERSHIPS

Oil & Gas

- Equipment Procurement
- Facility Support Services
- Rotating Equipment Solutions
- Technical Project Support

Renewable Energy

- Solar Power Installations
- Street Lighting Projects
- Commercial Solar Systems
- Hybrid Energy Systems

Strategic Partnerships

MRLB Limited partners with global technology providers, equipment manufacturers, financial institutions, and engineering firms to deliver high-quality, end-to-end solutions across Africa. These collaborations enable us to combine international expertise with local execution capability, ensuring reliable, scalable, and fit-for-purpose delivery across all our service areas

Local Content Advantage

As an indigenous Nigerian company, MRLB Limited combines international expertise with strong local execution capacity. This enables us to deliver practical, compliant, and efficient solutions while helping clients meet local content requirements and achieve seamless project delivery within Nigeria and across Africa.

TARGET FOR INDUSTRIES

Global Market

Quality Excellence

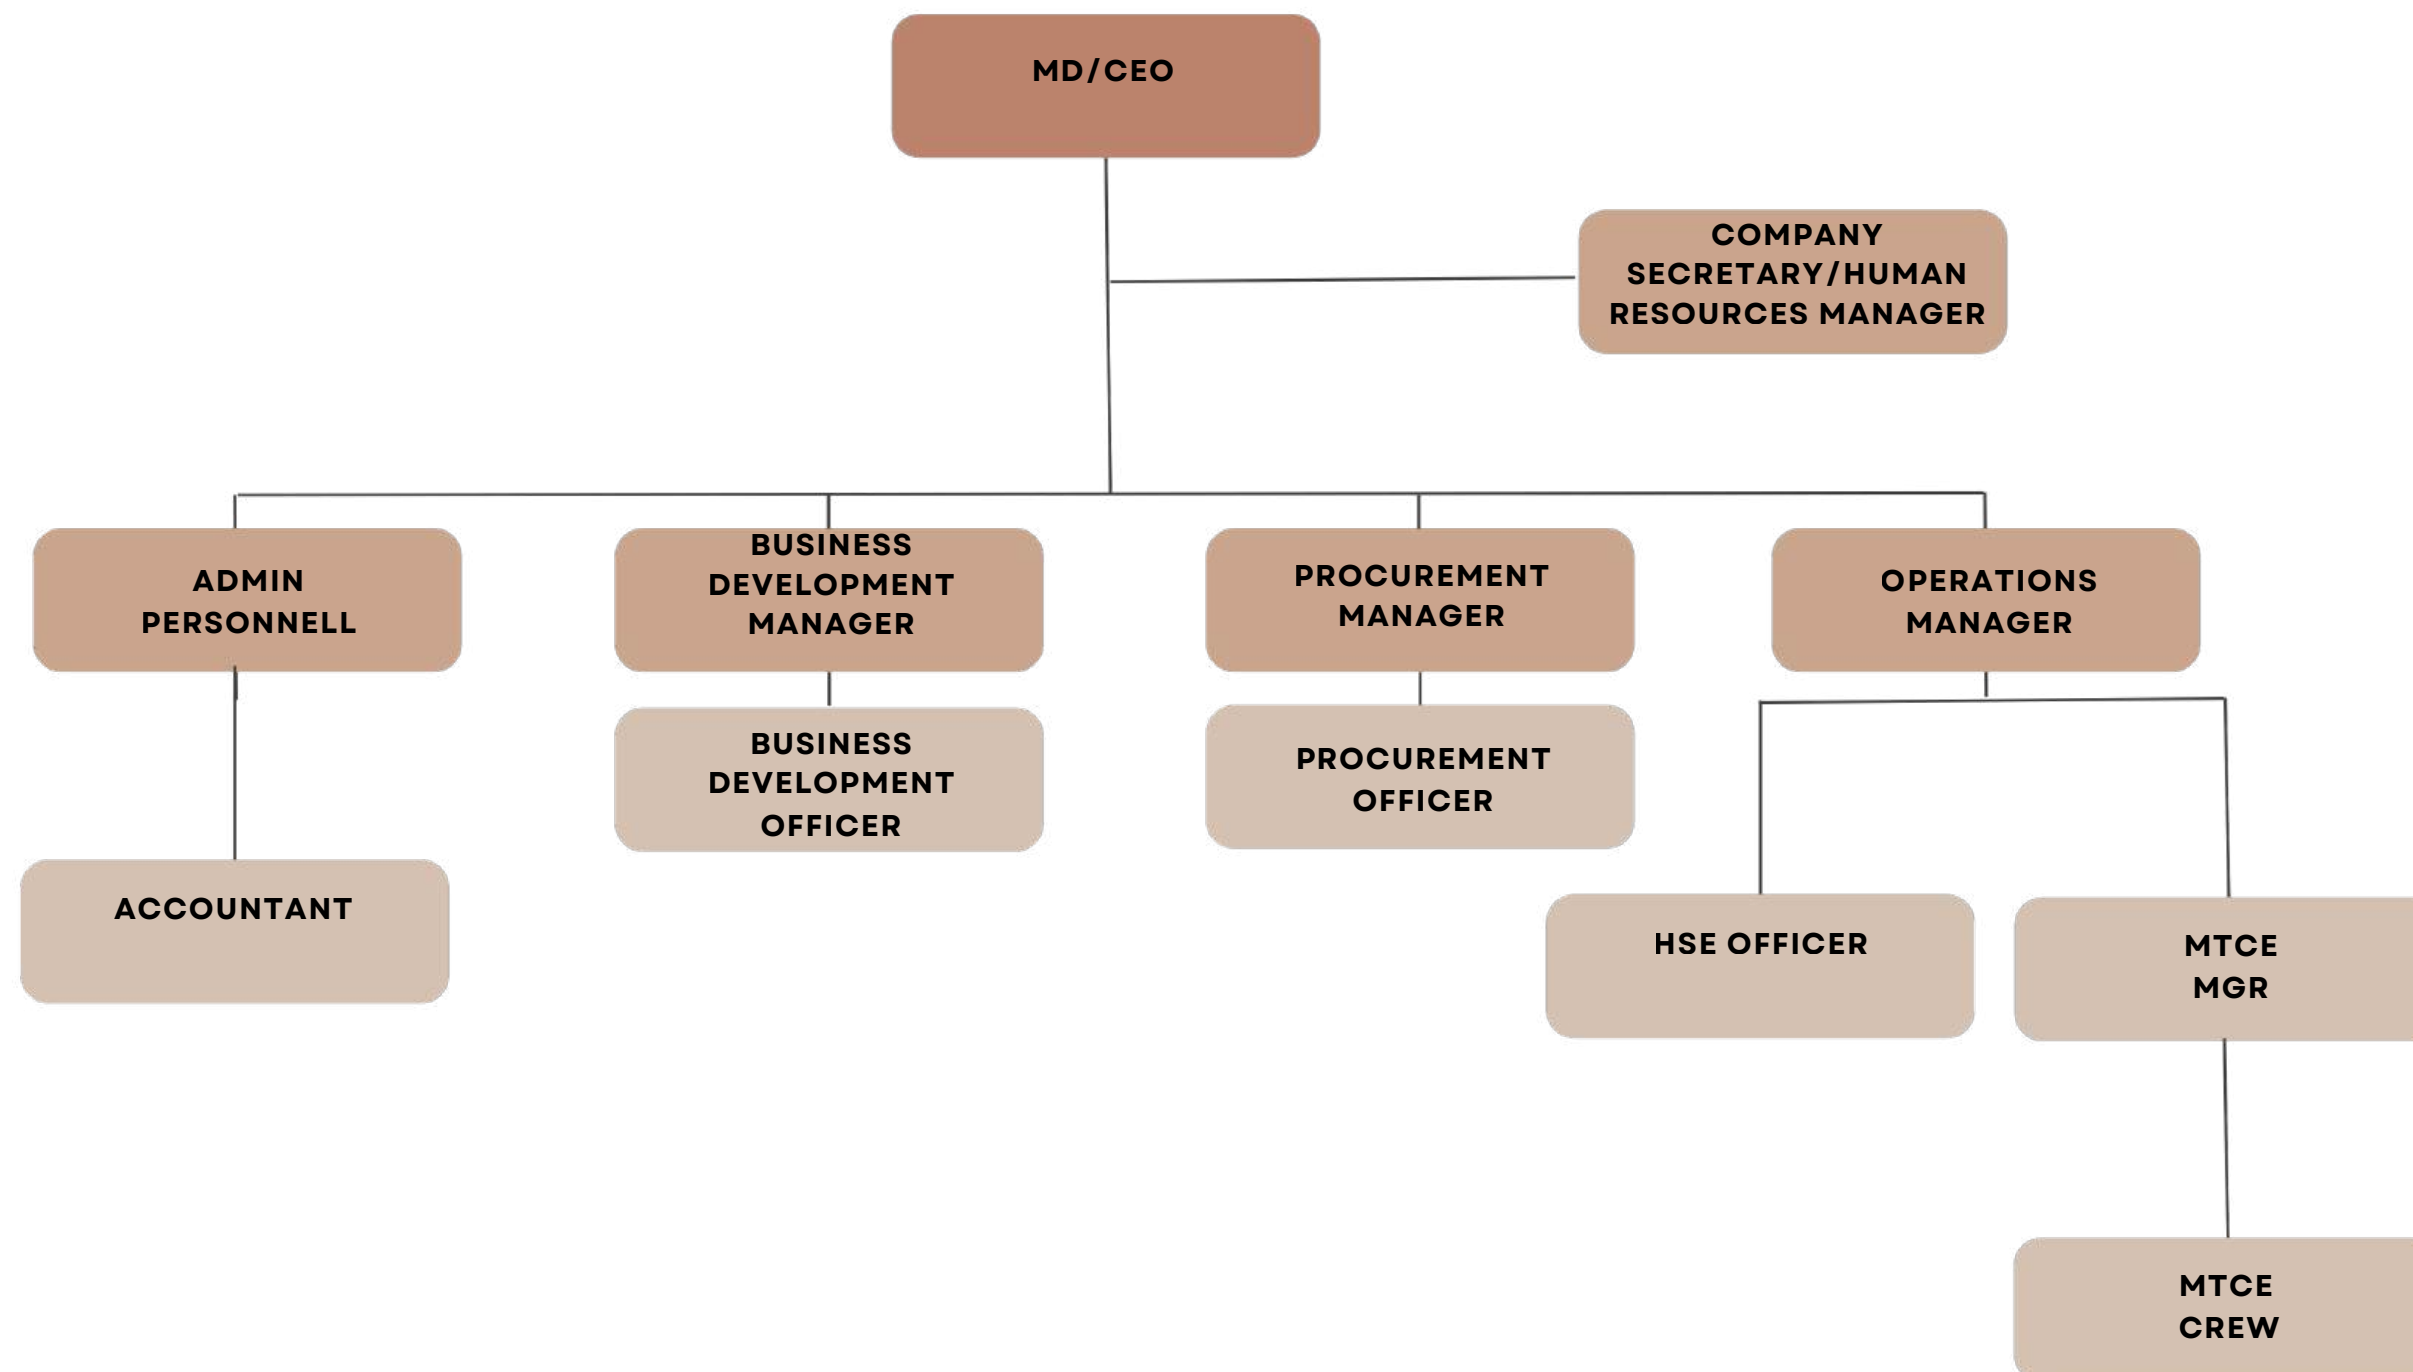

At MRLB Limited, we deliver integrated energy solutions focused on efficiency, sustainability, risk management, and safety across the Energy, Infrastructure, and Sustainability sectors.

In the energy sector, we provide end-to-end support across the asset lifecycle, including engineering, asset integrity, procurement, and energy solutions that enhance performance, improve reliability, and reduce environmental impact.

Across banking, telecommunications, and other commercial sectors, we deliver tailored energy and technical solutions that improve reliability, reduce costs, and support long-term sustainable growth.

ORGANIZATION STRUCTURE

WHY CHOOSE MRLB LIMITED?

- **Intelligent Solutions**
Combining technology, engineering, and sustainability to solve complex operational challenges.
- **Industry Expertise**
Deep understanding of energy, industrial, and infrastructure sectors.
- **Strategic Partnerships**
Access to leading global technologies and technical expertise.
- **Local Execution**
Strong Nigerian presence with the capability to deliver nationwide.
- **Sustainable Impact**
Supporting clients on their journey toward operational excellence and energy transition.

ISO COMPLIANCE

SUSTAINABILITY FOCUS

MRLB's Commitment to Renewable Energy Transition

Accelerating the global shift toward sustainable energy through participation and investments in green energy projects.

Alignment with Global Sustainability Goals

Contributing to the United Nations Sustainable Development Goals (SDGs), particularly SDG 7 (Affordable and Clean Energy) and SDG 13 (Climate Action).

Goals for Carbon Neutrality

Pioneering carbon-reduction initiatives to achieve net-zero emissions by 2035.

CLIENTS

We are proud to have delivered value to a growing portfolio of clients across the energy, oil and gas, communal, and industrial sectors. Every engagement reflects our commitment to excellence, innovation, and delivering solutions that address our clients' unique operational and business needs.

Our clients trust MRLB for our professionalism, technical expertise, and results-driven approach. As we continue to expand our footprint, we remain dedicated to building long-term relationships and supporting organizations with solutions that drive efficiency, sustainability, and lasting impact.

PARTNERSHIPS

At MRLB, we collaborate with trusted global organizations to deliver world-class services and innovative solutions. Actively seeking new partnerships, we aim to align with like-minded entities that share our values of excellence, sustainability, and impactful outcomes.

Together, we redefine possibilities, set new benchmarks for success, and create transformative solutions across all our ventures. Join us in shaping a future of innovation and shared progress.
